General Policies and Procedures for Covid

Contact tracing

- The school group will provide a list of all the people attending camp. This list will contain names of participants, and the cabin they slept in, we have an accommodation allocation form that is suitable.

Clarifying participant health information

- All adults and students need to be declared clear of Covid-19 signs and symptoms for the two weeks prior to attending. The school group needs to be confident that participants and / or their guardians are sufficiently reliable to provide this information. If this is not the case then additional clarification will be required.
- Any underlying medical issues that participants have that could affect their safe participation e.g. asthma which was easily managed prior to Covid-19 are disclosed.

Coach transport (Wadsworth Motors)

- Buses will be cleaned/sanitized between trips.
- All passengers getting on the bus will be required to hand sanitize.
- The use of public toilets during the trip will be minimized and those using facilities will be required to hand sanitize before getting back on the bus.
- As far as possible social distancing between the driver and passengers will be maintained.

Sea Shuttle transport (Abel Tasman Sea Shuttles)

- Vessels will be cleaned/sanitized between trips.
- All passengers getting on the boat will be required to hand sanitize.
- The use of public toilets during the trip will be minimized and those using facilities will be required to hand sanitize.
- As far as possible social distancing between the skipper and passengers will be maintained.
- The School will be the only passengers on the vessel.

Additional people on site

- There will only be a single group on site at any given time.
- Any contractors and suppliers will sign in and remain isolated from other people on site. If they are on site for extended periods of time they will be allocated separate toilets.
- Areas where any contractors are working will be fenced off from other people on site

Camp staff

- All staff are monitored continuously and will be clear of Covid-19 signs and symptoms. If any staff show signs or symptoms they will be isolated and tested. Groups will be advised of any positive cases during the two weeks prior to them attending.

Accommodation

- Where possible people will be spread throughout all our cabins to limit the number of people staying in each cabin.
- Where people are sleeping in close proximity to each other they will sleep head to feet or feet to feet to minimize close head to head contact.
- People will be encouraged to keep all personal gear tidy confined to their own bag / pack as much as possible.
- Any wet gear should be hung out to dry on the lines in front of the cabins.

Catering

- Serving will be done by camp staff wearing masks.
- There is to be no sharing of cutlery, crockery or cups. People should only touch the items they are eating or drinking from. There is to be no sharing of food from other people's plates
- Condiments etc will only be available from a designated area and will be handled by a single gloved person.
- Tables will be sprayed and wiped with an approved sanitizing product before each meal.
- Everyone is encouraged to use sanitizer at the servery.

Activities

- Social distancing will be maintained at all activities between camp staff and students / adults. Where this is not possible camp staff will wear masks.

Person showing symptoms of Covid-19 while on site

- The person will be separated from other people in the first aid room or another isolated area.
- The Ministry of Health will be contacted (0800 358 5453) and we will follow their advice regarding isolation, contact tracing and protecting others on site.
- Where possible two meters separation will be maintained between the person and anyone else on site.
- PPE will be worn if two meter separation can't be maintained.
- Communication of outcomes will be done as per the Ministry of Health recommendations.

Managing an emergency

- Emergencies will be managed as per our normal SOP's.
- The priority in an emergency is ensuring everyone is safe from the threat arising through the emergency event –fire, flood, earthquake etc. Once this has been established social distancing and sanitizing etc will be maintained at assembly points until the all clear has been given by emergency services.

We regularly review these policies and procedures and will update them as guidelines change
